air filtration products

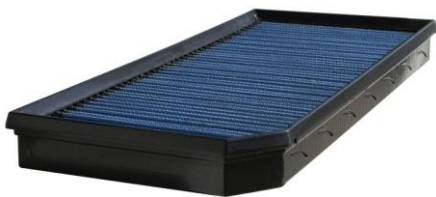

Performance Air Filters - diesel

Washable high flow air filter elements, available as standard with the patented 'Pro-Guard 7' filter media specially designed for diesel applications.

Manufactured in the USA, these filters give your engine an increase in horsepower, greater air flow, better filtering efficiency and longer service life than standard paper filters. Restore kits also available.

Available for:

Toyota Landcruiser 2H, 1HZ, 1HD-T
Toyota Hilux 2L, 2L-T, 2L-TE, 3L
Nissan Patrol GU TD42, RD28, ZD30
Nissan Navara ZD30

Performance Air Filters - petrol

Hiflo's range of replacement 'drop in' performance air filters are available for a wide range of vehicles.

The filters are made from 5 layers of progressively finer cotton gauze media for better protection and increased air flow, superior fit to air box and longer service life. Restore kits also available for filter elements and cold air intakes.

Cold Air Intakes – diesel

The Hiflo cold air intake kit for diesel applications, comes with a patented 'Pro-Guard 7' diesel pod filter for increased airflow and dust holding capacity. Also included are heat shrouds that require no cutting or drilling to fit, large diameter intake pipes for improved air velocity and all adapters for a neat fit.

Available for Ford F-Series, VW TDI, Chev, Dodge.

Cold Air Intakes – petrol

The Hiflo cold air intake kits include pod filter, heat shroud and intake pipe with adapter for MAP sensors, horsepower gains of up to 10% can be achieved on most vehicles.

Available to suit Jeep Cherokee & Wrangler, Chrysler 300C, Holden Commodore VE, Ford F-150 & F-250, BMW 3 & 5 series, Subaru WRX and VW Golf & Jetta
