

## fuel filtration products

### Hiflo Fuel Filter Adapter

Hiflo's fuel filter adapter allows you to fit the low cost 296 filter element for diesel in place of the expensive genuine fuel filter, and save money on every filter change.

The assembly fits up to the original filter mounting, allowing you to retain hand primer, fuel lines & brackets.

The filter adapter gives you the added benefit of a sedimentor with glass bowl & drain, so you can easily & quickly drain off any trapped water or sediment collected from your fuel before it has a chance to get into your engine.

**Available for Toyota, Nissan, Land Rover, Mitsubishi, Mazda, Ford & Isuzu.**

### Fuel Filter Assemblies

Hiflo's range of fuel filter assemblies.

All the assemblies can be fitted with the 296 filter element for diesel or Ryco R2132P element for petrol applications and glass or aluminium bowls. Filter components, additional elements, fuel fittings and banjo's also available.

**FA-B100** – fuel filter assy, with deep glass bowl

**FA-B500** – fuel filter assy, with shallow glass bowl.

**FA-B501** – fuel filter assy, with button primer

### Universal Fuel Filter Assemblies

We also have a range of universal filter assemblies, for diesel applications available, ranging on size from 57 L/hr, up to 681 L/hr. the assemblies are fitted with clear plastic bowls, spin on elements rated at 10 micron, fuel fittings and some with an optional hand primer.

Filter components and additional fuel filter elements are also available.
